Scholarships

A limited number of Fairview Scholarships are available, for students in Year 7 upwards. In exceptional circumstances the school may consider slightly younger applicants.

Students who can evidence exceptional talent, passion, commitment and achievement may apply for consideration in the following categories; Academic Passion, Excellence in Performing Arts, or Sporting Performance. Students may be considered across the three categories where they can evidence outstanding all round ability.

Fairview Scholarships are awarded on a merit basis at the school's discretion, resulting in an individual award of a discount against the published Tuition Fee.

The school does not offer bursaries.

Scholarship Terms and Conditions apply to all Fairview Scholarship offers as follows:

- Prospective Scholars must meet with the Head Teacher before any Scholarship request can be considered.
- The Scholarship outcome and any Scholarship award will be confirmed once the requested Scholarship evidence has been received and reviewed
- Scholarship awards are reviewed annually to ensure the Scholar continues to meet the terms of their Scholarship.
- Scholars should maintain a portfolio of evidence (and make it available for review, upon request) related to their Scholarship award. Portfolios can be in digital or paper form, or a mix of both.
- Scholarship awards result in a discount to the published Tuition Fee.
- Scholarship awards cannot be combined with any other school discount.
- The Scholarship award does not apply to the Security Deposit or any other costs, charges or fees.
- Scholars are expected to fully participate in school life and be a school ambassador, representing the school to the best of their abilities.
- Scholars feature in the school's promotional and marketing content
- Scholarship awards are conditional and so can be removed or reduced following
- Scholarship reviews, for example where the Scholar fails to maintain their
- Scholarship commitments, fails to meet these Scholarship terms and conditions or for behavioural/ conduct reasons. Conversely, depending on the level of the
- Scholarship award, there may be scope to consider an increase in future years where achievement levels are deemed to merit this following a Scholarship review.
- Scholarships are awarded at the school's discretion. The school's decisions regarding Scholarship outcomes are final.
